

## LATEST FOREIGN NEWS.

By the arrival of the barkentine *Jane A. Falkinburg* on Wednesday evening, bringing San Francisco papers to the 16th instant, we are enabled to give our readers the following late items of foreign news:

PARIS, April 10th.—Advices from Tripoli confirm the reports of the massacre of Colonel Flatters' expedition. Every Frenchman perished after a courageous resistance against overwhelming odds.

PARIS, April 12th.—A dispatch from the Governor of Algeria states that a portion only of Colonel Flatters' expedition were massacred, the remainder being prisoners in the hands of the Kadowis of Ouzargia. It is believed that Colonel Flatters himself is a prisoner. The Kadowis intend to demand an exchange of prisoners, they surrendering Colonel Flatters and the other members of the expedition, provided the French surrender some of their women and children whom they hold.

BERLIN, April 12th.—It is reported that Nasukisar, the most advanced fort on the road to Merv, has been taken by surprise and captured by the Turcomans, and the entire Russian garrison killed.

CONSTANTINOPLE, April 12th.—Earthquake shocks of considerable violence have begun again in Scio. Barely twenty houses remain habitable in the whole island. Villages are destroyed, and the population in many localities have absolutely disappeared.

LONDON, April 13th.—Morning.—The *Times* Scio correspondent says: I have now visited or obtained information regarding nearly all the villages in the southern half of the island, and I believe the number of killed for all the villages in question does not much exceed 1000, and perhaps less.

NEW YORK, April 13th.—A special cablegram says that the whole of northern Albania is in insurrection, and that 15,000 men are marching against Dervish Pasha at Scutari.

ST. PETERSBURG, April 14th.—A number of Nihilists to-night attacked the troops guarding the prison in which the condemned Nihilists are detained. Twenty Nihilists were captured, with bombs in their possession.

PARIS, April 14th.—Rothschild's house here have given notice to the Italian Government of its inability to issue a loan for the resumption of specie payments as long as the difficulties between France and Italy are not entirely smoothed away.

ST. PETERSBURG, April 15th.—All the Nihilists, except the woman Helfmann, condemned to death for connection with the Czar's assassination, viz., Raskoff, Michaeloff, Kibalschitsset, Jellaboff, and Sophie Ploofsky, were hanged at 10 o'clock this morning. Michaeloff's rope broke twice. Order was not disturbed. There was an immense concourse of spectators.

LONDON, April 15th.—The doctors and sailors from American ships particularly distinguished themselves in tending the wounded at Scio.

WASHINGTON, April 13th.—The Government responded nobly to the appeal on behalf of the Dakota sufferers with food, medicine, and the means for transporting the sick and helpless.

President Garfield will deliver the address at the Yorktown centennial.

Over 16,000 men are at work on the Sullivan-Palmer Railroad in Mexico and Texas. It is reported that Laredo will be reached in June, and Monterey by December 31st.

The number of immigrants that arrived in the United States during March was 44,121, of whom 19,000 were from Germany and 3000 from Spain. The number arriving during nine months ended March 31st was 321,422. Of these, 102,000 were from Germany, 87,000 from Canada and 33,000 from Ireland.

DENVER, April 13th.—The *News* has an interview with a prominent citizen just returned from the Uncompahgre Agency. He says all the indications point to a Ute outbreak at an early day. The settlers have their cabins loopholed and sleep on their arms, in anticipation of trouble. There are about 70 families in Uncompahgre valley, and only 100 soldiers at the cantonment, while the Utes can muster 700 warriors. The settlers have petitioned the Governor for protection.

YAKESON, April 14th.—The river is stationary. Those drowned are flocking hither and getting Government rations and aid. Two thousand five hundred need aid here, and 5000 below Vermillion. The flood on the Dakota side covers 227,000 acres, the whole region being thickly settled. Yankton is damaged only on the levee, where there has been a great deal of destruction of steamboats and warehouses. Captains Lavender and Noble have returned from a four days' cruise over the bottoms, having saved 410 people.

OTTAWA, Ont., April 14th.—A terrible disease has broken out among the Chinamen employed on the Canada Pacific Railroad works in British Columbia. The case of a Chinese cook at a place known as Big Tunnel will serve to illustrate the phase of the malady. He sat down, apparently well, to eat his dinner. His feet began to swell, and the swelling extended up his legs and body, reaching a vital part in ten minutes, and he tumbled down dead, in less than fifteen minutes. In this way people are dying in dozens, and already more than one hundred have been carried off.

NEW YORK, April 15th.—Reports of incoming craft show that the storms now prevailing are even worse than those of midwinter, and have been unusual in duration and in range. Vessels from the South American Coast and the Bermudas have been caught in gales almost without exception, some being partially wrecked and others suffering terrible hardships. Several vessels are ashore on the Jersey coast.

NEW YORK, April 15th.—The *Tribune* says: The first public exhibition of Edison's electric light in this city was given last evening at the headquarters of the Edison Electric Lighting Company, on Fifth avenue. From the outside the houses appeared to be brilliantly illuminated with gas, the blinding rays naturally expected from the electric lamps being wanting. Several rooms on the different floors were supplied with the electric lamps, from which a soft white light was emitted. Edison and several of his assistants were present. When Edison was asked if a single light could be turned off, he went to a single lamp in the hall and turned the light out with a thumb-screw. By a reversing movement he turned it on again. Preparations are making for putting in the company's lamps in that quarter of the city extending from Spruce and Wall streets and included between Nassau street and the East River. It will compete with the gas companies. Wires have already been put into forty houses.
